Enroll and Pay Overview:

Hello! My name is Emilie and I am a student here at the University of Kansas. Today I am going to give you a brief overview of Enroll and Pay.

Enroll and Pay is really the backbone to everything you will do at KU. As the name implies you will enroll and pay for classes on this website.

Let’s start out by logging into Enroll and Pay.

The initial home screen gives you a wide range of options. The ones we will go over in this video are Student Center, Campus Finances and Personal Information.

Let’s click on Student Center first>

Student Center acts as the home page for the students. I have found this page to be extremely useful as a student. It lists all the important tabs in one easy location. You can view Academics, Finances, Personal Information and Admissions as well as Holds, To Do List, Enrollment Dates, Advisor, Campus Information and other general information.

Let’s start by clicking on the Finances tab

>account management >This tab keeps all your financial information in one place. Account summary shows your activity, charges due, payments, pending aid and payplans/sponsors.

>Make a payment tab allows you to make a payment

>View/Print Bill allows you to see and print bills. Bills are generated on the 21st of each month

>Optional Fees allow students to select certain perks on campus including Beak ‘em bucks and sports pass as well as many others

>Newly admitted freshman can see their new student fee at the new student fee tab

>under the 1098-T tab important tax information can be found

Let’s go back to the Student center> Let’s take a closer look at the Holds Tab

If you had any holds which would prevent you from ordering a transcript, enrolling etc they would appear here.

The TO DO list tells students exactly what needs to be done. CHECK THIS OFTEN especially when applying for Financial Aid. When you click on the item it gives you more detailed information about how to take care of the task.
The personal information tab is another important one to keep updated regularly. Students tend to move around and change emails. It is important that you keep the University informed on your residence so we can get a hold of you if need be.

This was just a brief overview as to what all can be done through Enroll and Pay. Take some time to explore and become familiar with Enroll and Pay.

You can always visit our website for more information. Thanks for watching this video!
